1. **INDICATION FOR EXAM**: (check one)
   - [ ] Screening (asymptomatic)
   - [ ] Evaluation of breast problem (symptomatic)
   - [ ] Additional evaluation of recent mammogram
   - [ ] Short interval follow-up

2. **TYPE OF EXAM(S) PERFORMED**: (check all that apply)
   - Routine views (MLO, CC)
     - [ ] Standard film screen
     - [ ] Digital
     - [ ] Both
   - Diagnostic (additional) views (i.e., spot compression, magnification, other projections, etc.)
     - [ ] Standard film screen
     - [ ] Digital
     - [ ] Both
   - Ultrasound
   - MRI
   - Nuclear medicine
   - Other breast imaging
   - Other procedure(s)

3. **BI-RADS BREAST DENSITY**:
   (check denser breast if left and right differ)
   - [ ] Almost entirely fat
   - [ ] Scattered fibroglandular densities
   - [ ] Heterogeneously dense
   - [ ] Extremely dense

4. **INFORMATION AVAILABLE AT TIME OF ASSESSMENT AND RECOMMENDATION(s)**:
   (check one)
   - [ ] Comparison films only
   - [ ] Physical findings only
   - [ ] Both films and findings
   - [ ] Neither

5. **ASSESSMENT**:
   - [ ] 0: Needs additional imaging evaluation
   - [ ] 1: Negative
   - [ ] 2: Benign finding
   - [ ] 3: Probably benign finding
   - [ ] 4: Suspicious abnormality
     - *A: Suspicion level - low
     - *B: Suspicion level - moderate
     - *C: Suspicion level - high
   - [ ] 5: Highly suggestive of malignancy
   - [ ] 6: Known malignancy

6. **RECOMMENDATION(S)**: (check all that apply)
   - Next mammogram:
     - [ ] Normal interval
     - [ ] Short interval
   - Immediate Work-up:
     - Additional views
     - Ultrasound
     - Clinical exam for further evaluation
     - Surgical consult
     - Fine needle aspiration
     - Biopsy
     - Other __________________

7. **COMPUTER ASSISTED DIAGNOSIS TECHNOLOGY used to read**: (check all that apply)
   - [ ] Routine views
   - [ ] Diagnostic views
